EXPERIENCE

Student Success Manager **Noroff Vocational Academy - Jan 26 - Apr 26**

- Acted as the main liaison between administration, instructors, and students to ensure smooth communication and support.
- Managed onboarding, learner support, and query resolution through Microsoft Teams, Zendesk, and Moodle.
- Improved operational processes for student intake, assignment submissions, extensions, and resits.
- Supported student retention through proactive problem-solving and stakeholder communication.
- Automated repetitive administrative workflows using Power Automate and Claude Code in browser.

Technical Education Instructor → Team Lead **Noroff Vocational Academy Dec 22 - Dec 25**

- Managed and supported the learning experience of 700+ online students across HTML, CSS, JavaScript, TypeScript, and React programs.
- Led Open Source Project teams as Scrum Master and Product Owner while coordinating a team of six instructors.
- Facilitated onboarding calls, learner support, and difficult stakeholder conversations in a fast-paced online environment.
- Managed Moodle administration and contributed to the maintenance and improvement of the internal LMS platform.
- Provided technical support, feedback, and recorded demonstration content to improve learner engagement and outcomes.
- Collaborated on continuous LMS and process improvements to enhance the online learning experience.
- Proofread and refined technical and educational content for clarity, consistency, and usability.

Intermediate Software Developer **LexTego - Jan 22 - Sep 22**

- Agile Startup Software Development with TypeScript, Next JS and KoaJS
- Cross-team collaboration in a remote setting for a startup - concept to [launch OCTIA](#)
- I impactfully reduced 90% duplicated code by abstracting and publishing code to a private package.
- Teamwork and mentoring/supporting team mates and iterating on the launch of OCTIA
- Maintaining and developing API documentation and Telemetry Dashboards (Elastic)
